

Release Notes

Overview

Date	December 2025
Version	2025.12.1
Previous	2025.06.7
Summary	We have the pleasure of presenting you with a better version of this application with new features, improvements and optimizations.

The screenshot displays the Quick Suite Trading application interface. The main window is titled "QST-level - Paper Trading" and shows a "Market Overview" table with columns for Instrument, Instrument Description, Last, and Bid. The table is categorized into Agricultural, Currencies, and Equity Indices. The "Agricultural" section lists various commodities like Corn, Soybeans, and Wheat. The "Currencies" section lists instruments like Australian Dollar, British Pound, and Canadian Dollar. The "Equity Indices" section lists instruments like E-mini S&P 500 and E-mini Dow Jones Industrial Average.

On the right side, the "Instrument 2" window shows details for "Australian Dollar December 2024". It includes fields for Last (0.65900), Exchange (CME), Instrument value (\$65,930.00), and a price ladder. Below this is a "Price Chart" showing the instrument's price movement from June to November 2024.

The bottom of the interface shows a navigation bar with tabs for Account, Portfolio, Overview, Trading, Chart Analysis, Options, News, Trading Log, Accounts Monitor, Market Making, Data Suite, Matrix, FQP and TS, All Options, Board, Indicators, RFQ, Charts, EFRP, eNLT, and Event Bs. The status bar at the bottom indicates "Connected to Primary as aolar-act6" and "Connected to Paper Trading Server" at 11:02:52 AM EET.
